***Acknowledgement***

Receipt is acknowledged of the Amendment filed December 4, 2008.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas George on December 20, 2008.

The application has been amended as follows:

Claim 5, line 1, "Claim 4" has been replaced with "Claim 1".

***Reasons for Allowance***

Claims 1-3, 5-17, 19 and 20 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Houston, taken alone or in combination of other references, does not teach or fairly suggest a method or an integrated circuit comprising, among other things, applying a standby voltage, less than the first supply voltage, to a gate of the n-channel transistor; and applying the reduced supply voltage at a second source/drain region of the n-channel transistor(claim 1); and a plurality of feedback lines, each coupling the second source/drain region of each of the plurality of high voltage transistors to a corresponding control circuit (claim 13), as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
